

## SABRINA QUACH

(415) 637-1892 | [sabrina.quach@sjsu.edu](mailto:sabrina.quach@sjsu.edu) | <https://www.linkedin.com/in/sabrina-quach-sjsu/> | <https://sabrinaquach.github.io/>

### EDUCATION

San Jose State University |

December 2025

*BS in Computer Engineering; Minor in Interaction Design*

#### Relevant Coursework:

- **Interaction Design** - Advanced practical applications of interaction design theory, with an emphasis on strategies for software products including aspects of both UX (user-experience) and UI (user-interface) design.
- **Digital Applications: Methodology** - Exposes students to the tools, skill sets, and languages that are essential to understanding the fundamentals for web based information and interaction design principles and discovery of its practice in the profession.
- **Human Factors** - Human psychology and physiological characteristics and methods for taking these into account in designs and development of human-machine systems. Current human factor engineering efforts in lab, design process and operational environment.
- **Algorithms and Data Structure Design** - Object-oriented data organization and representation as strings, arrays, stacks, queues, dequeues, lists, sets, trees, tables, and graphs. Sorting and searching and algorithm design and performance analysis.
- **Advanced Algorithm Design** - Design and analysis of data structures and algorithms. Advanced tree structures, hashing, searching and sorting. Divide-and-conquer, greedy, and dynamic programming algorithm design techniques.
- **Information Security** – A study of computer and network security from centralized systems to distributed networks. Cryptology, vulnerabilities and controls. Firewalls, privacy enhanced e-mail, viruses and worms. Case studies will be featured.

### TECHNICAL SKILLS

- *Coding Languages:* C, C++, HTML, CSS, JavaScript, Verilog, React Native
- *Other:* Docker, GitHub, Microsoft Office Suite, Adobe Suite, User Research, Figma
- *Languages:* Cantonese (Elementary Fluency)

### PROJECTS

**Adobe Mentor Project** | *Figma, User Research* | Collaboration

March 2025 - May 2025

- Collaborating with a team to design new UI inputs for GenAI to allow creatives with more expression, engagement, and control of their work.

**Government Website Redesign** | *HTML/CSS, JavaScript* | Collaboration

February 2024 – May 2024

- Collaborated with a team to redesign a government website, integrating Git for version control.

**SJSU Scheduler Redesign** | *Figma, User Research, Usability Testing*

March 2025 - May 2025

- Redesign of the SJSU Scheduler, enhancing user experience and interface for streamlined course planning and scheduling.

**Nest Learning Thermostat Usability Report** | *Research*

January 2024 - May 2024

- Conducted an analysis of Nest's Learning Thermostat using usability principles to improve the user experience, providing recommendations.

**AuraTherm / Aura** | *JavaScript, React Native* | Collaboration

January 2025 - Present

- Built a motion detecting smart thermostat paired with a smart home app to improve energy efficiency.

### WORK EXPERIENCE

**Student Democracy Program** | Election Poll Worker | On-site

October 2020 - November 2020

- Assisted voters of all demographics with voting.
- Ballot check-in and drop-off. Answering any concerns with voting.

**Tea Percent** | *Barista/Trainer* | On-site

April 2023 - July 2023

- Trained new employees to ensure an efficient working environment.
- Improved customer satisfaction by resolving customer needs and concerns.
